**Statement by Senator Dan Gelber on Governor Crist's Decision to Enter the
United States Senate Race**

MIAMI: "I have kept no secret my friendship with Governor Crist, nor my admiration for his willingness to work across the aisle, as he did with me on extending early voting hours last fall. Although it is hard to understand how diverting his attention from the management of our state during one of its most difficult periods will help Floridians, I appreciate and respect that these decisions are uniquely personal. With that I welcome him to the race."
