Subject: RE: interview request

Michael – here is a statement from Congressman Bill Posey:

“I voted against the bill because they wouldn’t let us read it; and I know that excessive government spending creates more debt than it does jobs. Today’s higher unemployment rate of 9.5% proves that. Florida taxpayers should be outraged that they sent billions of their hard earned dollars to Washington, only to see it redistributed to other parts of the country and unemployment climb far above the 8% cap that was promised. Now future generations of Americans – our kids and grandkids – will be liable for this new, massive debt as unemployment continues to rise.”

Have a nice 4th of July - George

George M. Cecala
Press Secretary
Congressman Bill Posey (FL-15)
