**To:**

From the Desk of  
Chairman Jim Greer

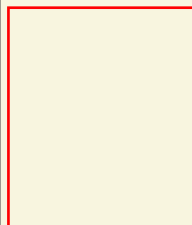

Dear Republican Leaders and Friends,

I'm pleased to inform you that during this fundraising quarter (July, August and September, 2009) the Republican Party of Florida exceeded all of our fundraising goals by receiving over \$4 million in contributions. During this period, I traveled the state meeting with many of our Party's donors, on all levels, informing them of our Party's initiatives and programs. I am proud to also report that over 8,000 individual donors made contributions to the RPOF during this third quarter with over 1,000 in new contributors.

This tremendously successful fundraising quarter clearly demonstrates that Republicans and Independents from all areas of Florida are rallying around the Republican message of less government, less taxes and more freedom while actively opposing President Obama's radical approach to government's role in our daily lives. This financial support also reaffirms the unwavering support of Governor Charlie Crist, Attorney General Bill McCollum and myself in leading our Party to victory in 2010.

To all those who have contributed, whether it be \$25 or \$25,000, I am truly grateful for their continued support. I am confident that if we are united and work together, *our greatest victories are yet to come.*

Warmest Regards,
