MAJORITY LEADER HASNER: THRASHER CHOICE A POSITIVE MOVE FOR RPOF

"He is the right person to refocus the Republican Party of Florida on the task ahead."

"I fully support the choice of Senator John Thrasher as Chairman of the Republican Party of Florida. As former Speaker of the Florida House, he has a proven conservative record of real reform for our state.

"This is a positive move for the party. Senator Thrasher is well-respected throughout the state and is a unifying voice. He knows how to win tough campaigns and I believe he is the right person to refocus the Republican Party of Florida on the task ahead- winning elections in November 2010.

"As Majority Leader of the House and Co-Chair of the RPOF Victory 2010 effort, I look forward to working with him and Republicans across the state over the next year as we take our winning message of conservative reform, job creation and recharging Florida's economy to the voters. With Senator Thrasher's leadership, we now have put a strong team in place to secure impressive victories in November."
