President Obama and Congressional Democrat leaders have broken their promise of transparency when it comes to the current health care bill that will affect all Americans. Please join Charlie Crist and sign [this petition](#) urging Kendrick Meek and his Democrat friends to stop keeping Americans in the dark on health care:

“As a citizen of the United States of America, I do hereby declare my opposition to Congressional Democrat Leaders’ attempts to keep Americans in the dark regarding the current health care bill. President Obama has broken his pledge to the American people to be transparent throughout this process, and (Senate Majority Leader) Harry Reid and (House Speaker) Nancy Pelosi have only aided in the secrecy with sweetheart deals and dead of the night votes.’ I demand that Congress and the White House allow openness and transparency in all aspects of this debate which will affect the lives of all Americans.”
